SUMMARY

First-year BS student in Applied AI & Data Science at IIT Jodhpur with a strong foundation in Python, statistics, data analysis, and machine learning fundamentals. Experienced in building end-to-end data analysis projects involving data cleaning, exploratory data analysis (EDA), visualization, and AI-based applications. Passionate about solving real-world problems using data and continuously expanding technical expertise.

EDUCATION

Indian Institute of Technology (IIT) Jodhpur

BS in Applied AI & Data Science, Relevant Coursework: , Python Programming, Statistics & Probability, Linear Algebra, Numerical Optimization, Foundations of Artificial Intelligence, Data Visualization, Pattern Recognition, Machine Learning, Databases, Operating Systems 2026 – Present

PROJECTS

Air Quality Index (AQI) Analysis of Indian Megacities | Python | Pandas | Matplotlib | Seaborn

- Cleaned real-world air quality data with missing sensor readings.
- Applied interpolation and preprocessing techniques.
- Performed feature engineering using timestamps.
- Identified seasonal pollution trends across major Indian cities.
- Built visualizations and documented actionable insights.

Pet Recommendation Expert System | Python | Rule-Based AI | Forward Chaining

- Developed an expert system using symbolic AI techniques.
- Implemented a rule-based inference engine for personalized pet recommendations.
- Applied knowledge representation and explainable AI concepts.

Marketing ROI Analysis Dashboard | Python | Power BI | Excel

- Analyzed campaign performance across multiple marketing channels.
- Evaluated conversion rates, customer acquisition costs, and ROI.
- Created dashboards to support data-driven marketing decisions.

TECHNICAL SKILLS

Programming Languages: Python, SQL, HTML, CSS, JavaScript (Basic)

Python Libraries: Pandas, NumPy, Matplotlib, Scikit-learn

Data Visualization: Power BI, Tableau, Flourish

Databases: MySQL

Tools: Git, GitHub, Google Colab, Jupyter Notebook, VS Code, KNIME, Microsoft Excel

Concepts: Exploratory Data Analysis (EDA), Data Cleaning, Feature Engineering, Machine Learning Basics, Statistical Analysis, Data Visualization, AI Fundamentals

ACHIEVEMENTS

- Developed multiple AI and data analytics portfolio projects. - Active GitHub contributor with practical machine learning and analytics work. - Continuously building projects in AI, Data Science, and Business Intelligence.

SOFT SKILLS

- Analytical Thinking - Problem Solving - Communication - Teamwork - Time Management - Continuous Learning

LANGUAGES

- English (Professional) - Hindi (Native)
